

DHRUV PAREKH

Hyderabad, India | dhruvparekhworks7@gmail.com | +91-94400-93737

Summary

Software Engineer with a foundation in Java, Python, and SQL, and hands-on experience designing cloud-native architectures on Google Cloud Platform. Skilled in translating business requirements into technical designs — including data pipeline architectures, service-selection frameworks, and agentic AI prototypes — with experience authoring technical documentation and presenting design decisions in technical review sessions. Google Cloud Associate Cloud Engineer certified.

PROFESSIONAL EXPERIENCE

Accenture — *Data Eng, Mgmt. and Governance Associate*

Oct 2024 – Present | India

- Completed a structured technical upskilling program spanning the software development lifecycle for GCP data engineering — requirements analysis, BigQuery-based system design, ETL/ELT pipeline architecture, and storage service selection frameworks.
- Designed and prototyped agentic AI solutions using Python, Streamlit, and Gemini 2.5 Flash, implementing tool calling, business-rule enforcement, and human-in-the-loop escalation for enterprise use cases.
- Built GCP service-selection decision trees, architecture diagrams (Draw.io), and cost-optimization frameworks; conducted risk, compliance, and production-readiness validation for each design, presenting and defending decisions in technical review sessions with solution architects.

TECHNICAL SKILLS

Programming: Java, Python, C++, JavaScript, SQL.

Backend: REST APIs, Node.js, Spring Boot, Microservices.

Database: MySQL, MongoDB, BigQuery.

Cloud: Google Cloud Platform (GCP), AWS, BigQuery.

Core CS Concepts: Data Structures, Algorithms, OOP, System Design, Distributed Systems, Agile.

EDUCATION

Pragati Engineering College — *B.Tech, Computer Science*

2020 – 2024 | Surampalem, AP

INTERNSHIPS

Google Cloud — *Associate Cloud Engineer Intern*

May 2024

- Deployed and managed **GCP** infrastructure spanning compute, networking, and storage across hybrid environments

AWS — *Cloud Internship*

May 2022

- Completed a capstone project and mini-projects covering core AWS services and cloud architecture fundamentals

Salesforce — *Developer Internship*

Jun 2022

- Built CRM applications using Apex and guided project frameworks; earned Trailhead super badges in developer fundamentals

PROJECTS

Coconut Merchant Business Website | React.js, Node.js, HTML, CSS

- Designed RESTful APIs using Express.js.
- Used Git for version control.
- Built reusable backend modules.

Capstone Project — *Blockchain-Based Secure Image Retrieval System*

- Designed a modular backend workflow for secure image processing.
- Implemented AES encryption and SHA-256 hashing.
- Improved integrity verification using immutable blockchain records.

CERTIFICATIONS

- Google Cloud Associate Cloud Engineer (ACE)
- Claude Certified Architect
- NPTEL: C, C++, Java, Cloud Computing
